- Keep online chat focused on the learning. Ensure chat is respectful of all participants.
- Complete all online tasks.
- Think before you push the Send button Did you say just what you meant? How will the person on the other end read the words? While you can't anticipate all reactions, do read over what you've written before you send it.
- If you have missed some part of the lecture due to technical error, contact the concerned lecturer. One should raise their query during the online lecture by appropriate means. For eg. Raise your hand physically or in chat box (if option is available).
